

Contracts for Difference Allocation Round 4: Allocation Guidance

Guidance by the EMR Delivery Body for Allocation Round 4

Draft Version 1.0

November 2021

Legal Disclaimer and Copyright

Disclaimer

This guidance document has been prepared by National Grid Electricity System Operator Limited (NG ESO) and is provided voluntarily and without charge. Whilst NG ESO has taken all reasonable care in preparing this document, no representation or warranty either expressed or implied is made as to the accuracy or completeness of the information that it contains and parties using information within the document should make their own enquiries as to its accuracy and suitability for the purpose for which they use it. Neither NGESO nor any other companies in the National Grid plc group, nor any directors or employees of any such company shall be liable for any error or misstatement or opinion on which the recipient of this document relies or seeks to rely other than fraudulent misstatement or fraudulent misrepresentation and does not accept any responsibility for any use which is made of the information or the document or (to the extent permitted by law) for any damages or losses incurred.

Capitalised terms used in this document shall have the same meanings given in the Contracts for Difference (Allocation) Regulations Or the Allocation Framework, Schedule 1.

Please note that the rules outlined in [the Allocation Framework](#) for [AR4](#) and the Contracts for Difference (Allocation) Regulations take precedence over this guidance document and participants are encouraged to familiarise themselves with these rules, and if appropriate seek legal advice, before proceeding with an application.

Confidentiality

This guidance document, and its contents should be considered as confidential in nature, and this document is supplied on this basis. No part of this document may be reproduced in any material form (including photocopying and restoring in any medium or electronic means and whether or not transiently or incidentally) without the written permission of NG ESO.

Version control

The table below will record the page numbers of any new changes to the document for each version. The new general changes will be highlighted in yellow throughout the guidance document. Any changes updated due to policy changes are highlighted in baby blue.

Introduction

- National Grid Electricity System Operator Limited (NG ESO) is the Delivery Body for Electricity Market Reform (EMR). Part of this role includes administering the qualification process and running the allocation of Contracts for Difference (CfD), in accordance with the CfD legislative framework and Department for Business, Energy and Industrial Strategy (BEIS) documents, specific to each CfD Allocation round.
- This document is part of a suite of guidance documents prepared by NG ESO which is to be used in conjunction with the relevant Allocation Framework. It is designed to assist you with the technical aspects of completing the application form and the subsequent allocation processes.
- There is a feedback form attached to this document (in the top right-hand corner of this document). Please use the feedback form to provide feedback on this guidance document.
- This guidance document outlines the pre-application activities that Applicants are required to complete, prior to submitting a full application. However, you will still need to familiarise yourself with [the Allocation Framework](#) and eligibility requirements of the scheme when applying for a CfD, as this guidance is a supplementary document and is not an exhaustive list of the rules and eligibility requirements.
- A general overview of the CfD mechanism and Delivery Partners can be found [here](#) on our combined website.
- The Contracts for Difference Delivery Partners are:

nationalgridESO

How to use this guide

Our guidance documents have been designed to walk prospective applicants through the application process in a clear, simple and transparent format.

A toolbar runs along the bottom of each page showing which stage in the CfD Journey you are currently in.

Click on the home icon to return to the main menu and on the page icon to return to the contents page.

We welcome all feedback so click on the feedback icon to leave any comments you may have regarding this guidance document.

For general enquiries or support in using this guidance, please contact us via:

Phone: 01926 655 300

Email: EMR.CfD@nationalgrideso.com

Contact details and feedback

1.0 Valuation

During application valuation, the Delivery Body assesses the aggregate value of all qualifying applications for each Delivery Year against the pot budget and the total capacity against any applicable capacity cap, to determine if a competitive allocation process (auction) is required.

This section also covers the auction process and general principles

Select from the buttons opposite to find out more:

1.1 Valuation and allocation overview

Valuation — the Delivery Body values all applications to determine whether allocation is constrained or unconstrained. If constrained an auction is run.

Auction — following the sealed bids submission window, the Delivery Body shall run a closed auction using the sealed bids that have been submitted.

Independent Audit — an independent auditor carries out an audit of the auction and valuation processes to verify the results.

Secretary of State review — auction results are provided to the Secretary of State who undertakes an Allocation Process Review, deciding on whether to Proceed, Re-run or Cancel the Allocation Process.

Notification — applicants are notified as to whether they were successful or unsuccessful at auction. The Delivery Body also provides notification of successful qualifying applicants to the Low Carbon Contracts Company.

8. Allocation

9. Notification

1.2 Valuation formula

The Delivery Body uses a **Valuation Formula**, as stated in Schedule 2 of the draft allocation framework, to calculate the budget impact of each qualifying application. The variables used in this formula are published in the Round specific Allocation Framework and the same calculation is used for sealed bids, where an auction is required, using the Strike Price bid instead of the Administrative Strike Price (ASP).

1.3 Valuation - process overview

Valuation calculation - Following the assessment, data (capacity/TCD/TCW) is taken from each individual qualifying application and the valuation formula is applied to determine the budget impact of those applications.

Budget and capacity impact - The Delivery Body determines whether or not the valuation of all the qualified applications exceeds the overall pot budget. The total capacity for all qualifying applications is also used to determine whether the capacity limit for the round has been exceeded.

Unconstrained allocation - If both the budget and capacity cap are not exceeded, each qualifying application shall be offered a CfD at their technology specific Administrative Strike Price; this is known as unconstrained allocation.

Constrained allocation - If the budget and/or capacity limit is exceeded, then the Delivery Body shall run an auction between all qualifying applicants; this is known as constrained allocation.

2.0 Sealed bids

Where an auction (constrained allocation) is necessary ([see 1.0 Valuation](#)), in accordance with the Round specific Allocation Framework, the Delivery Body shall issue a Notice of Auction to all relevant qualifying and pending applicants, inviting the submission of sealed bids.

This section of the guidance document also covers sealed bid validation rules for both general bids and multi-phased projects.

Applicants shall have 15 Working Days to submit their sealed bids from Notice of Auction.

2.1 Sealed bids – overview

Who can submit sealed bids?

Where an Auction is necessary, in accordance with the Round specific Allocation Framework, the Delivery Body will issue a Notice of Auction to all **qualifying and pending applicants**, inviting them to submit Sealed Bids.

When can sealed bids be submitted?

Sealed bids must be submitted during **a 15 working day** sealed bids submission window (details of which shall be set out in the Notice of Auction). Once the window has closed the Delivery Body shall not be able to accept any further bids.

How are sealed bids submitted?

Sealed bids are submitted using the **EMR Delivery Body Portal**. **A separate guidance video** will be made available to explain how this process works in practice. Applicants can withdraw bids and resubmit during and up until the end of the sealed bids submission window. **Withdrawal of sealed bids** is also managed through the **EMR Delivery Body Portal**.

What changes can be made to sealed bids?

Applicants can vary the **capacity**, **Target Commissioning Date (TCD)**, **Target Commissioning Window Start Date (TCWSD)** and **Strike Price** of each sealed bid. **These changes can be submitted on or before the Submission Closing Date**. Sealed bid validation rules are outlined in the [next section](#).

Consequences of not submitting or withdrawing sealed bids

Where no sealed bid is submitted, or if all sealed bids are withdrawn and not re-submitted by an applicant by the submission window closing date, the Delivery Body will assign the applicant **a single bid** with the same **Administrative Strike Price**, **Target Commissioning Date**, **Target Commissioning Window Start Date** and **Capacity**, as specified in the original application.

9. Notification

2.2(a) Sealed bid validation rules

All sealed bids must be submitted using the EMR Delivery Body portal. The following criteria apply to sealed bids:

General

Applicants can submit a maximum of four sealed bids and up to two bids for the same Delivery Year.

Applicants may only submit a maximum of two sealed bids where the TCD of the original application was in the second delivery year.

Applicants may withdraw and re-submit sealed bids during the **15 working day** Sealed Bids Submission Window.

Only one sealed bid can have the **same Target Dates (TCD and TCWSD)** and Capacity as specified in the Original Application.

Each sealed bid must have a different combination of Strike Price, Capacity, and/or Target Dates (TCD and TCWSD).

Applicants who do not submit any sealed bids will be assigned a single bid using the ASP, the TCD, TCWSD and the Capacity, as specified in the original Application.

Strike Price

Strike Price in each sealed bid must be in pounds sterling (in 2012 prices).

The lowest Strike Price bid in each Delivery Year must be expressed to the nearest whole penny (i.e. £0.01), all flexible bids (in each Delivery Year) must be to a tenth of a penny (i.e. £0.001).

The Strike Price of each sealed bid cannot exceed the relevant Administrative Strike Price (ASP).

Capacity

The Capacity for each sealed bid cannot exceed the Capacity of the original application.

Where the technology type of any given CfD Unit must have a capacity greater than 5MW (e.g. each phase of offshore wind, anaerobic digestion, remote island wind), sealed bids cannot be submitted below this threshold.

TCD and TCW

The Target Dates (TCD/TCWSD) cannot be earlier than the Target Dates specified in the Original Application, subject to Rule 12.2 (phased offshore).

The TCD for each sealed bid must fall within the TCW.

Each TCD must fall within one of the relevant Delivery Years (maximum of two TCDs per Delivery Year).

The TCW for each sealed bid is set at one year.

Year 1 factor shall always be '1' in the final valuation year (VY2 – 2026/27 or **2028/29 depending on technology type**) regardless of where the TCD or TCW is placed in any sealed bid.

Successful bids

Only one sealed bid per application may be a successful application. Contracts are awarded based on the information contained within the winning bid such as TCD, TCW and Capacity.

5. Appeals

6. Valuation

7. Sealed Bids

8. Allocation

9. Notification

2.2(b) Phased offshore wind validation rules

The following additional criteria apply to sealed bids for phased offshore wind projects (multi-phase):

General

All phases are taken into account when assessing budget impact against the budget profile.

The number of phases submitted for each sealed bid must match the number of phases specified in the original application.

Strike Price

A sealed bid must include a single Strike Price that shall apply to all phases.

The Administrative Strike Price cap for the Strike Price for each sealed bid applies from the **Target Dates** of the first phase.

Target Dates (TCD and TCW)

Target Dates for the first phase will be treated as the first **TDs** – each additional phase **TD** can not be earlier than this date.

TCD of the final phase can be no later than 2 years after the TCD of the first phase.

The TCD for each phase must be covered by the TCW for that phase.

TCD for phases 2 and 3 can be placed in either the Delivery or Valuation years, latest date **31 March 2029**.

The first phase TCD must be targeted to complete by no later than **31 March 2027**.

No phase of a phased project can be earlier than the TCD of the first phase, as stated in the original application.

Capacity

Total Capacity of all phases in each sealed bid cannot be greater than 1500 MW.

Total Capacity of all phases in each sealed bid cannot exceed the total Capacity stated in the original application.

For each sealed bid, the Capacity of phase 1 cannot be greater than the Capacity of phase 1 of the original application.

The Capacity of the first phase must represent at least 25% of the total Capacity of the CfD Unit.

The Capacity of each phase must be greater than 5MW.

2.2(c) Example bids (validation - general)

Below are examples of sealed bids that would either be accepted or rejected:

Original application (Application 'A')

Technology: AD
Admin Strike Price: £128.00
TCD: 31/03/2026 (DY1 2025-26)
Capacity: 50MW

Sealed bid 1 – Bid Accepted

Bid A1
Bid Strike Price: £90.42
TCD: 31/03/2026 (DY1 2025-26)
Capacity: 50MW

Sealed bid 2 – Bid Accepted

Bid A2
Bid Strike Price: £92.121
TCD: 31/03/2027 (DY2 2026-27)
Capacity: 25MW

Sealed bid 3 – Bid Rejected

Bid A3
Bid Strike Price: £200.001
TCD: 01/04/2025 (DY1 2025-26)
Capacity: 2MW

Sealed bid 4 – Bid Rejected

Bid A4
Bid Strike Price: £129.00
TCD: 01/04/2026 (D2 2026-27)
Capacity: 55MW

Strike Price is greater than the ASP for DY1 (£128.00 for AD).

TCD is earlier than the TCD of the original application.

Capacity is less than 5MW (must be greater than 5MW for AD).

Strike Price is greater than the ASP for DY2 (£128.00 for AD).

Capacity is greater than that of the original application (50MW).

2.2(c) Example bids (validation - offshore)

Below are examples of sealed bids for an offshore wind applicant, showing the original application and accepted/rejected bids:

Original application (Application 'A')

A – Phase 1

Admin Strike Price: £46.00
TCD: 01/04/2025 (DY1 2025-26)
Capacity: 500MW

A – Phase 2

Admin Strike Price: £46.00
TCD: 01/04/2026 (DY2 2026-27)
Capacity: 500MW

A – Phase 3

Admin Strike Price: £46.00
TCD: 01/07/2026 (DY2 2026-27)
Capacity: 500MW

Sealed bid 1 – Bid Accepted

Bid A1 – Phase 1

Bid Strike Price: £40.42
TCD: 01/10/2025 (DY1 2025-26)
Capacity: 200MW

Bid A1 – Phase 2

Bid Strike Price: £40.42
TCD: 29/03/2026 (DY1 2025-26)
Capacity: 600MW

Bid A1 – Phase 3

Bid Strike Price: £40.42
TCD: 01/08/2027 (VY1 2027-28)
200MW

Sealed bid 2 – Bid Rejected

Bid A2 – Phase 1

Bid Strike Price: £55.00
TCD: 01/04/2026 (DY2 2026-27)
Capacity: 2MW

Bid A2 – Phase 2

Bid Strike Price: £55.00
TCD: 01/10/2026 (DY2 2026-27)
Capacity: 2000MW

Bid A2 – Phase 3

Bid Strike Price: £55.00
TCD: 31/03/2029 (VY2 2028-29)
10MW

Strike Price is greater than the DY2 ASP (£46.00)

TCD of final phase is more than 2 years after the TCD of phase 1

Total capacity of all phases exceeds that of the original application.

Capacity is less than 5MW

Capacity exceeds 1500MW limit

2.3 Creating sealed bids (1 of 5)

Qualifying Applicants and applicants with Pending Status shall be notified as to when the sealed bid submission window is open. The window shall be open for a period of 15 working days, after which no more bids will be accepted.

All sealed bids are submitted on a sealed bid submission form which is created in the EMR Delivery Body Portal. Applicants must submit their sealed bids on a sealed bid submission form in the EMR Delivery Body Portal.

Where no sealed bid is submitted by the Applicant by the Submission Closing Date, the Delivery Body must assign the Application a bid of the relevant Administrative Strike Price for its Technology Type, and the Target Dates and capacity, as specified in the Original Application.

Applicants do not directly participate in the actual auction process, but the auction process is run on the Delivery Body auction system based on the submitted sealed bids. Applicants will be notified of the results once the process has concluded."

The following slides in section 2.3, 2.4 and 2.5 explain with screenshots how to create, submit and withdraw sealed bids within the EMR Delivery Body Portal, once the submission window is open.

2.4 Sealed bid validation (system view)

Below are examples of how the EMR Portal system displays sealed bids once they have been saved in the system.

Strike price and capacity

Opposite is an example of two sealed bids for the same application, both submitted for the same delivery year.

In this example you can see that the system has validated the lowest strike price bid for the Delivery Year by highlighting it in green.

The highest strike price bid must be to the nearest tenth of a penny.

Delivery Year	Administrative Strike Price (£/MW)	Lowest Strike Price Bid for Delivery Year	Lowest Strike Price Bid for Delivery Year	Strike Price Bid (£/MW)	Initial Installed Capacity Estimate
Single Phase					Single Phase
2023/2024	121.00	Yes	25.12	25.12	60.50
2023/2024	121.00	No	73.97	25.12	45.75

TCD and TCWSD

Opposite is an example of four sealed bids for the same application that have been submitted across two delivery years.

This example shows the validation rules for the TCD and TCWSD. The TCD for each bid sits within the TCWSD start and end dates.

The system will automatically determine whether the TCD is in the first or second delivery year.

Sealed Bids ID	TCW - Start Date	TCW - End Date	TCW	Delivery Year
	Single Phase	Single Phase	Single Phase	Single Phase
CFD 2023-Sealed Bids- CFD-2021-17-4414-SB01-01	15/06/2023	14/06/2024	22/07/2023	2023/2024

2.5 Withdrawing from the CfD Process

Qualifying Applicants have the opportunity to withdraw their Application from the CfD process in the sealed bids window, without incurring the [Non-Delivery Disincentive](#).

WARNING

If you withdraw from the CfD process at this stage your Application cannot be recovered.

Reminder: All application (including pending applications) can also be withdrawn up to and including the application closing date.

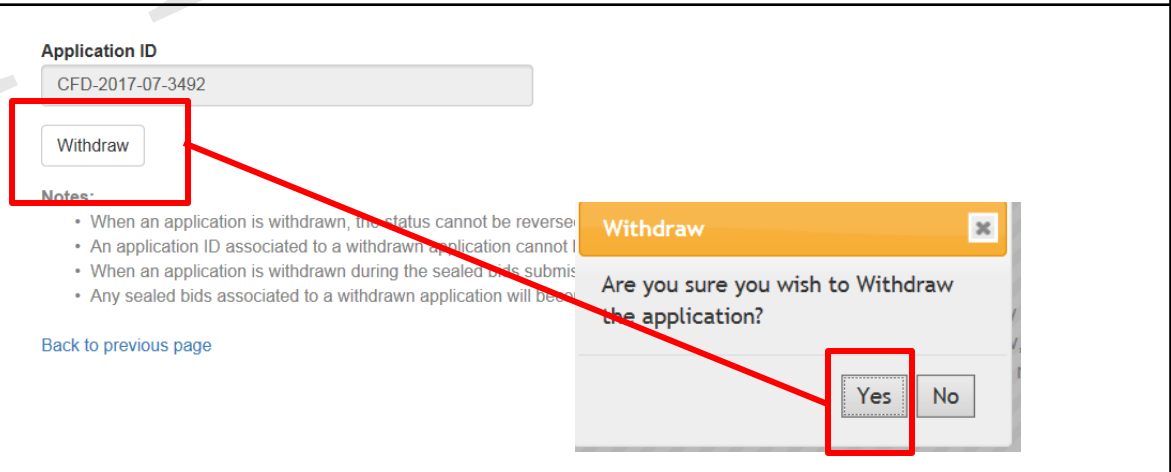

1) Select Application to Withdraw

- Select Application and click on Withdraw Qualification Application.

2) Confirm Application to Withdraw

- Read the disclaimer and click on **Withdraw**.
- Click on **Yes** to confirm Withdrawal.
- **WARNING** – Selecting Yes shall Withdraw the Qualifying Application from the CfD Process including Auction, this final stage is irreversible.

9. Notification

3.1 Allocation scenarios

Unconstrained Allocation

Opposite is an example of unconstrained allocation, where all qualifying applications fit within both the budget and capacity limits. This would result in no auction and all applications shall be awarded a CfD at the technology specific Administrative Strike Price.

Constrained Allocation

Opposite is an example of constrained allocation, where the Delivery Body determines that qualified applications exceed the pot budget and/or the overall capacity limit. This scenario would trigger the requirement to hold an auction to competitively allocate CfDs.

1. Pre-Application activities

2. Application

3. Qualification

4. Reviews

5. Appeals

6. Valuation

7. Sealed Bids

8. Allocation

9. Notification

3.2 Allocation - auction process overview

Auction requirement — the Delivery Body runs the application value process and determines constrained allocation is required.

Sealed bid submission window — qualifying applicants and pending applicants are invited to submit sealed bids via the EMR Portal within a **15 Working Day window from Notice of Auction.**

Auction assessment — the Delivery Body uses all submitted sealed bids to run the competitive allocation process. Bids compete on a strike price basis.

Auction clearing — successful applications receive a pot clearing price set by the most expensive successful bid across both Delivery Years (subject to a cap of any technology specific Administrative Strike Price and separate maximum clearing prices).

3.3 Delays to Allocation

Impact of Process Delays

Where there is a delay in the Allocation Process, pursuant to Regulation 40, and a direction has been given by the Secretary of State, the Delivery Body will issue all relevant Applicants with a Variation Notice.

The Variation Notice allows Applicants to adjust the relevant Target Commissioning Date (TCD) and Target Commissioning Window Start Dates (TCWSD) of their Application.

The Delivery Body will perform the Application Valuation and Allocation in respect of all Qualifying Applications or Sealed Bids and where new TCD and/or TCWSD were submitted, the Delivery Body will consider the new TCD and/or TCWSD and use the Administrative Strike Price of the relevant Application or Sealed Bids, as was submitted prior to the Process Delay.

3.4 Auction – general principles

An auction is **run using sealed bids** from applicants who have successfully qualified and are deemed as Pending Applicants (maximum of 4 sealed bids).

Sealed bids are **submitted via the EMR Portal** and are assessed from **lowest to highest** Strike Price.

All application sealed bids **compete on a Strike Price** basis and only one bid from each application can be successful.

Sealed bids **tied on the same Strike Price** are handled by tiebreaker rules set out in the Allocation Framework.

Auction is **pay as clear**. Successful bids are paid a clearing price, **set by the most expensive successful bid across both Delivery Year (capped at ASP)**.

Interleaving rules are used to ensure best use of the overall budget, allowing flexible bids to be considered where an original bid was rejected.

Auction closure

During the auction, if a bid exceeds (breaches) either the budget or capacity limits, the interleaving rule comes into effect other than in minimum only/maximum only auctions. Here, the auction system shall look for a flexible bid from the same applicant and shall attempt to allocate this bid along with any other bids that are between this and the bid that originally caused the breach. If all of the bids can be allocated, interleaving is successful and the auction continues. If any of the bids in the interleaving loop cannot be allocated then the auction shall close.

3.5 Independent Audit

Delivery Body Independent Audit Requirements

Regulation 36 sets out the obligations placed on the Delivery Body to ensure an Independent Audit (Process Audit) of the Valuation and Allocation calculations is carried out. Immediately following completion of the Allocation Process, the Delivery Body will instruct the Independent Auditor to conduct a Process Audit.

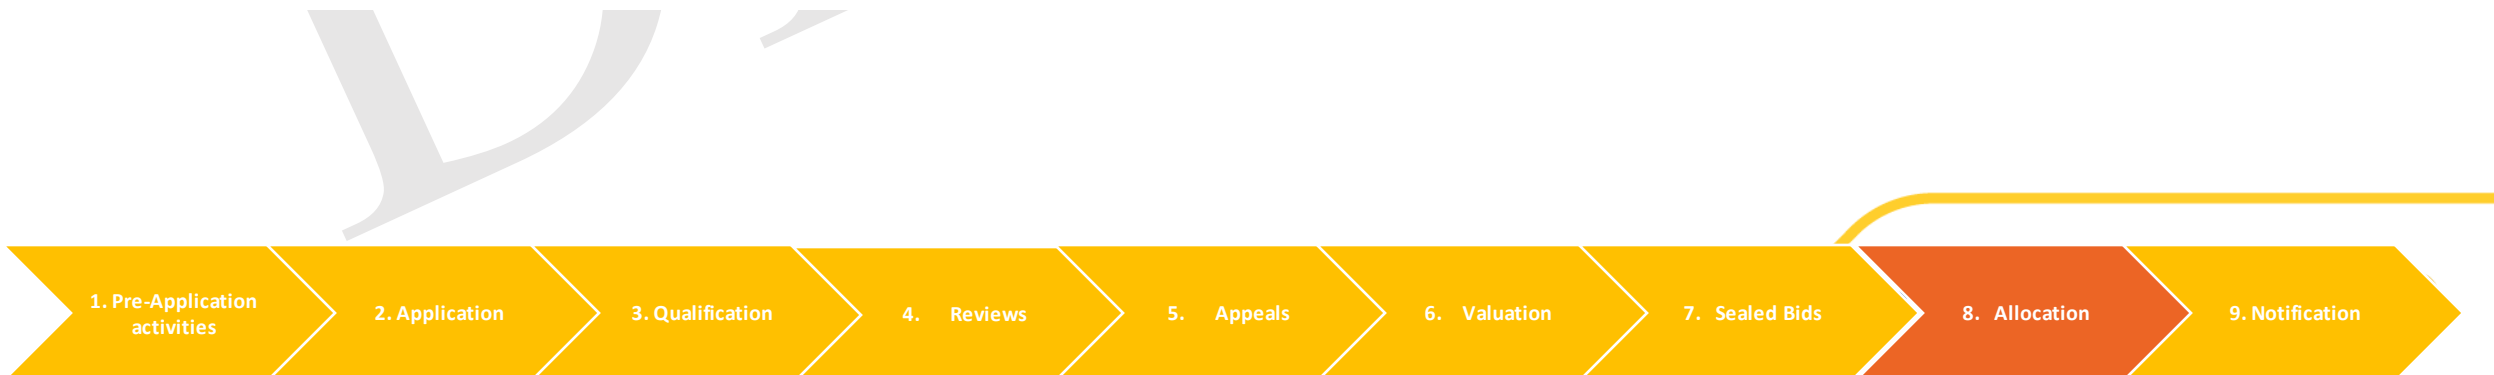

The Independent Auditor will verify if the Delivery Body has used the Valuation Rules, Allocation Rules and Applicants details, appropriately, to determine the outcome of the Allocation Process. The Independent Auditor will provide an Audit Report which sets out:

- (i) whether or not the auditor considers that calculations have been made correctly and accurately; and
- (ii) where applicable, identifies any calculations which the auditor considers were not correctly or accurately made and identifies the consequences of those calculations.

Secretary of State Allocation Review

The Secretary of State will have two days from receipt of notification from the Delivery Body, to review the Auditors' Report with the Delivery Body's recommendation, to determine if the Allocation Process must proceed to Notification, Re-Run, or be Terminated.

If the Secretary of State does not respond within two working days, the Delivery Body will proceed with its recommendation.

4.0 Notification

At the end of an Allocation Round, the Delivery Body will give written notice to each Qualifying Applicant setting out whether or not that Applicant is a Successfully Qualifying Applicant.

Notifications will be provided to registered Applicants through the Delivery Body Portal. Notification information includes:

Auction Outcome

- Whether or not the Applicant was successful in securing a CfD

For Successfully Qualifying Applications, notifications shall include:

- The awarded CfD Strike Price
- Successful Allocation Capacity
- Target Commissioning Date

The Low Carbon Contracts Company (LCCC) will be informed of successfully Qualifying Applications
